

The unique chip, which protects you up to 100 % against harmful electromagnetic radiation during mobile phoning.

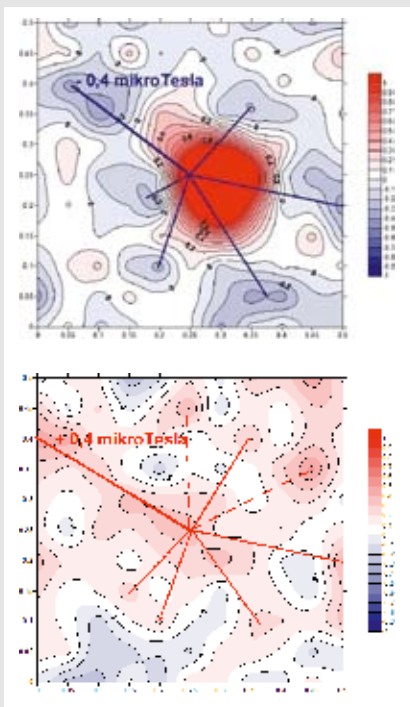

**„MOBILE PHONE RADIATION PROTECTION STICKER“**  
**SCIENTIFICALLY PROVEN**

## Measurements-Report of 11/2010

### The compensating effect of the VITAL ENERGY mobile phone chip on magnetic fields (excerpt)

#### Effect of the iPhone on the surrounding magnetic field:

Within the area of the iPhone itself a strong increase of vertical magnetic flux density can be observed ( $> 1\mu\text{T}$ , red zone in the middle), measurements in the surrounding are predominantly reduced (up to  $0,4\mu\text{T}$ , blue colored zone). The blue lines point from the middle of the mobile phone to the checkpoints showing distinctive reduction of the vertical magnetic field density.

#### Effect of the Mobile Phone chip on the iPhone:

Here the red coloration mainly shows an increase of vertical magnetic field density, up to  $0,4\mu\text{T}$ . The red lines point from the middle of the mobile phone to the checkpoints showing a distinctive increase of the measurement.

This is therefor regulated by the influence of the chip.

#### With this criteria the detected results are to be evaluated as following:

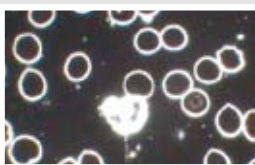

The examined mobile phone chip test samples show the ability to clear/counterbalance magnetic interferences with a conventional mobile phone, as well as with an Iphone, when it is in active operation mode. The effect is repeatable and is in accordance with the structure of the interference caused by a mobile. Interferences with a degree up to  $0,4\text{ Microtesla}$  will be compensated up to 100%. The effect of the mobile chip is not even lost after a 72 hours treatment in an extreme non-homogeneous magnetic field. It increases.

Electromagnetic Compatibility on biophysical basis

## Observation method in a dark field with vital blood

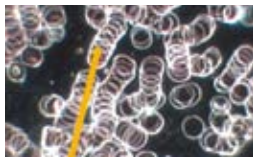

**Proving of negative effects of mobile communication radiation on our vital blood and pathological changes in general human organism related to it. (excerpt)**

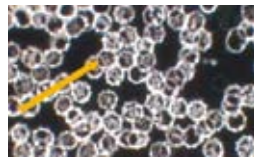

**Almost healthy blood:** (free round erythrocytes with a lot of live energy)

If a mobile phone is provided with a WAVEEX-chip by Vital Energy, the blood does not become worse at a 10-minute telephone call, it may even improve!

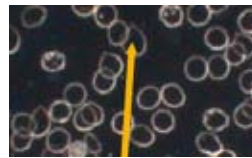

**Forms of symptoms in blood which changed when calling 10 minutes from a mobile telephone without having a WAVEEX-chip:**

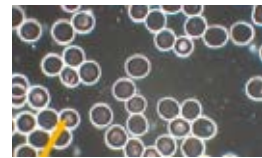

Sedimentation, „rouleaus“

Echinocytes

Lemon shapes

Live energy

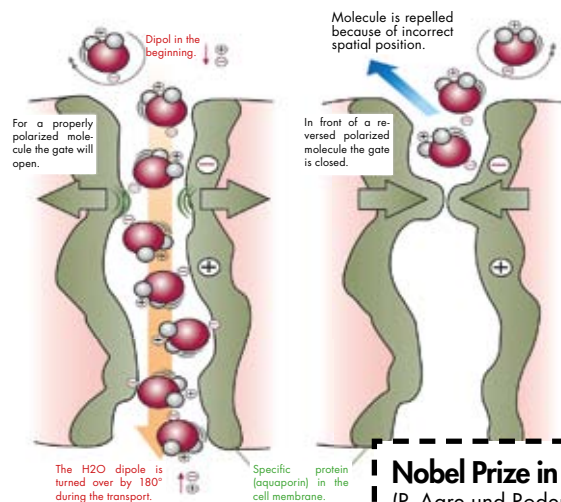

**Result:** WAVEEX-chip harmonizes health with harmful radio radiation at mobile telephoning. If the phone call was made without the WAVEEX-chip at first and then with the WAVEEX-chip, we could see that almost always the patient's bad blood improved. We do not have clear explanation for this phenomenon; however, we accept it with pleasure.

**To conclude we must say that we are persuaded that this new WAVEEX-chip can protect a lot of mobile phone users against harmful radiation.**

(P. Agre und Roderick McKinnon)

## Pilot test in the context of certification analysis for the seal of quality “electromagnetic compliance” (excerpt)

**Analytical method: ECG-analysis to determine the heart-beat-variability and therefrom derived linear and non-linear parameters.**

**Blue:** reference measurement

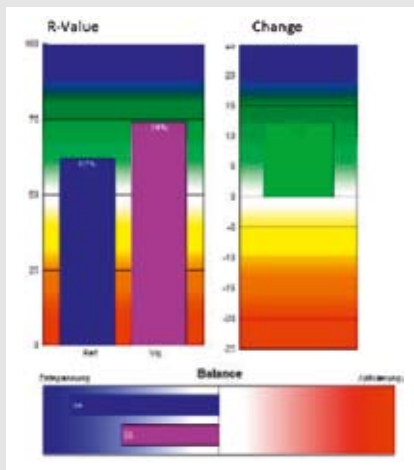

**Purple:** after having a phone-call without WAVEEX-chip for 5 minutes without talking.

**R-Value:** Indicates the vital-energy of the test-person. The average value of healthy people is 50 %. This test person had 62% (very good). The phone-call decreased this value by 8 percentage points.

**Balance:** For the reference measurement the vegetative balance is too far in the relaxation-area (parasympathikus) for that time of day (84%).

And after the phone-call this value is even increasing.

**After this first test a WAVEEX-chip got applied to the mobile phone. 7 minutes later the same procedure was repeated:**

**R-Value:** The previous loss of vitality of 8 %-points was completely caught up. It was even possible, to increase the value of the vital-energy to 74 %.

**Balance:** With the WAVEEX-chip applied a biological desired reaction happened to the organism, as the vegetative balance came back from the relaxation-area.

**Result:** The test result was positive. The biological reaction of the test-person was as expected. The situation with the WAVEEX-chip brought a biological better result. The process of the analysis equates to the physical analysis done by IIREC. The expected effects to the organism have been approved.

**As soon as this pilot-test turns in an expert testimony we will provide further details. But if these results get confirmed, we are able to say, that making a phone-call with a WAVEEX-chip brings positive vital energy to your body and increases your health.**

## Experienced medical doctors and scientists prove that rays from mobile phones cause the following unhealthy side effects.

### 10 healthy medical mobile-phone rules

- Make fewer calls and keep the length short. Children and teenagers below 16 should not phone at all.
- Do not keep the mobile-phone near your head during call setup.
- Do not phone in vehicles (cars, buses, train ) - the radiation there is much higher.
- When you send a SMS keep your mobile-phone as far away as possible from your body.
- Keep a few meters distance from other persons when phoning, They also will be exposed to your phones radiation.
- Never put the mobile-phone to your trouser pocket – the radiation may affect the usefulness of men.
- At night always turn off your mobile-phone. Never keep it in the area of your head.
- Never play games on it.
- Headsets are not exempt from the radiation – the cable conduct the radiation.
- Wireless LAN and UTMS also lead to very high exposure to radiation.

**Vienna Medical Association  
Dr. Hans-Peter Petutschnig**

*Republic of Italy Appeal Court of Brescina Court decision No 614/09 Cron 2659, R.Gen.N. 361/08*

**Outcome:** Doing phone-calls with a DECT phone, 5 to 6 hours a day for more than 12 years may cause head cancer. (There is a causal relationship ). WHO-studies of the year 2000 are no longer valid. Newer studies are based on better data quality now.

Studies from ROSTAT (2009 – Russian statistic agency) and UNICEF (2010) prove that teething problems have increased steady since the year 2000.

RNCNIRP (The Russian national committee on Non-ionizing Radiation Protection) classify these diseases as “potentially caused by mobile-phone-usage”.

*Children under 14: ... increase of 58 % of neurological disfunction and 64 % more cases of blood diseases and irritation of the immune system.*

*Children between 15 and 17: .. + 36 % diagnosis of epilepsy, + 82 % irritation of immune system, + 85 % !!! disfunction of the central nervous system.*

**One cannot deny the danger of mobile radio to humans – specially to children.**

**Council of Europe - 6th of May 2011  
claims a change in the mobile telephony policy.**

The safety value for electromagnetic radiation must be lowered. DECT- telephony, mobile-phones and WLAN must be forbidden in schools.

[www.zeitschrift.com](http://www.zeitschrift.com) Ausgabe Nr. 70/2011

**EU-directive 2004/40/EG - 29th of April 2004.**

Minimum standards to protect the safety and health of employees against the hazard of physical impacts ( electromagnetic fields )

Till May 1st, 2012 it must conform to Austrian law.

Vital Energy was founded in 2009. Its business purpose is to offer health and wellness products to a broad market with an unbeatable cost/performance ratio without loss of quality.

### Philosophy

- We develop products, which increases everyone's wellness.
- These products will be affordable for every person.
- Our technical equipment was developed using state of the art knowledge of the new natural sciences. It is also certified against the general safety standards.
- Thereby we fall back to the state of the art findings of the integrated cures closely connected to the newest test methods so that it is possible to demonstrate the effectiveness.
- As with every new approach there are of course antagonists out of the area of the classical school science. But we act according to our motto **"SUCCESS replaces any arguments"**.
